## 1 Introduction

In this document,we explain several parts of the Personal Computer and every one of them should appear in the Index above.

Terms like generate and some will also show up. Terms in the index can also be nested

## 2 Central Processor Unit

This section spends some words on the main component of a PC which is the Processor usually addressed as CPU. This is the piece of hardware that phisically executes *software* instructions one at at time.

## **3 Hard Drive**

This is where data is stored

### **3.1 types of hard drive**

There are SSD drives and traditional drives

## 4 Memory

This is where *programs* allocate space for their *execution*

### 4.1 types of Memory

We have SDRAM, SO-DIMM

## Alphabetical Index

CPU, Processor, 2

data, 3

generate, 1

Index

    nested, 1
